

## ABOUT US

Environmental Pest Management was founded in 2003 to help protect the property and health of residential and corporate clients. Providing a full range of pest management services to more than 2,000 clients, including Nationwide Arena, Plaza Properties and the The Ohio State University, we have grown an average of 40 percent annually during the past six years. Our commitment to customer service has earned an Angie's List Super Service Award and helped us retain more than 98 percent of our clients.

For more information, visit [www.epm1.net](http://www.epm1.net).

Key benefits:

- Safe for children, pets and the environment
- Scheduled appointments
- Low to no odor
- Warranty beats industry benchmark
- Trained, professional service technicians

## OUR PREVENTIVE PROGRAMS

**Our top priority is to ensure that your home is protected with products that are safe for you, your family and the environment.** Our pest management professional will thoroughly inspect your home and identify how the insects or rodents are getting in. The recommended course of treatment will address not only getting rid of your unwanted guests and preventing them in the future, but also suggested non-chemical measures to make your home less attractive to pests.

All treatments are scheduled for a specific time, and for your convenience, we accept credit cards as well as checks.

### SPRING AND FALL PROGRAM

Your home will be treated two times per year, once in the spring and once in the fall. If you have a problem with any bugs that the treatment protects against within 30 days of treatment, we will retreat the area at no additional charge

### SPRING / SUMMER / FALL PROGRAM

This is our most popular program. Your home will be treated three times per year. If you have any problem at any time within the year with the insects covered by the program, we will return at no charge to correct the problem.

### QUARTERLY PROGRAM

This program is designed for the homeowner that likes all of the features in our Spring, Summer and Fall Program, but would like additional coverage for mice and rats. Your home will also be inspected annually for any termite activity.

## COMMON QUESTIONS

### What is Preventive Maintenance?

Think of having an impenetrable barrier that protects your home from unwanted insects. The outside perimeter is encircled with a barrier of protection against most pests.

### How does it work? Is it safe?

A low odor microencapsulated insecticide will be applied to your home with a power sprayer. Areas of protection will include: around soffets and eaves, windows, deck areas, front and rear porches, mulch beds, around garage doors. This application will not harm plants, grass or shrubs, and is safe for pets and children once it's dry.

### What precautions do I need to take?

We ask that all windows and doors be closed, pets kept inside, and any outdoor toys picked up. Environmental Pest Management can e-mail you prior to treatment for your scheduled service, or we can have it set up automatically so you don't even need to be home!

### Which program is best for my home?

We feature three different programs. No other company offers as much coverage as we do in our preventive maintenance programs-guaranteed.

### What insects am I protected against?

Pavement ants, carpenter ants, earwigs, sowbugs, pillbugs, centipedes, millipedes, spiders, crickets, oriental cockroaches, woodroaches, asian lady beetles, bees, wasps, mice and rats.

*(Mice and rats are only covered in the quarterly program.)*
